 13. Signature place (on blank form)
 14. Attached NIC,

Comment:

How can there be ‘secrecy of details’ when the person is signing a blank form?

How can anyone claim that ‘information is true’ when the person signing the blank form does not know who or what information is being written?

The gist of the issue is that there is an organized effort to collect signatures on blank forms and a third party or parties are filling lies and submitting them as true witness testimonies.

We may never know if the same is being done for overseas submissions as well which is why the OHCHR /UNHRC must launch an internal investigation
